I work on all four levels that you function on and offer the following services:

On the **Spiritual/Energetic** level I offer my **Life Essence Reading** where I look at your energy field and share with you what I perceive and how that plays out in your life. I analyze over 68 components of your energy field. If you have defective energies, I will fix them using **Psychic Surgery**. I also remove blocks, spells, curses, and other kinds of external sabotage.

Mentally I work with your minds, helping you to change beliefs in your sub-conscious and unconscious minds, and help you eliminate unwanted negative self-talk. I also offer custom hypnosis sessions.

Emotionally Using **Cellular Memory Release**, I work with you to clear your past of hurt, grief, traumas and other unresolved issues that stand in your way, so that you can find peace and forgiveness. I help you establish great self-worth, self-esteem, self-respect, self-confidence and self-love.

Physically I offer **Medical Intuition** which is a great tool for identifying issues that no one else can figure out. I also offer hands-free **AlignTheBody** sessions, where I align your skeletal structure by sight.

All these services are available either here at my office in Los Angeles, or via a video connection such as Skype, Zoom or Facebook. *I have satisfied clients all over the world.*
